

SAM KAUFMANN RESONANCE ENGINE

Resonance Engine is an immersive performance that blurs the line between concert and art installation. Composer and guitarist Sam Kaufmann brings music from his award-winning film/TV work and standalone compositions into dialogue with the audience. The performance unfolds as a living artwork: part concert, part spontaneous creation.

WHAT TO EXPECT

- **Film & TV Scores Reimagined** — Sam's music for tv & film, reshaped for the stage.
- **Original Compositions** — a minimalist blend of jazz, classical, and popular music.
- **Audience as Ensemble** — guided moments creating music together, unique to that room, that night.
- **Performance Art Feel** — storytelling, sound, & improvisation that sparks curiosity & participation.

QUOTES

"More than a performance, it's an experience. Sam involves you in the process, and presents it on another level."
- Adrienne Pettijohn, The Walt Disney Company

"A big high five to the best hi-fi guy I know!"
- William Shatner

BIO

Sam Kaufmann is an Emmy-nominated, award-winning guitarist & composer with music across every major film studio, network, and streaming service. He has performed with artists across genres, blending jazz, classical, rock, and Americana into a distinctive sound. With a career spanning collaborations from Michael Jackson to Pat Metheny, Sam transforms each performance into a shared creation with his audience.

PERFECT FOR

- **Museums & Galleries** — experiential programming that engages visitors as co-creators.
- **Schools & Universities** — inspiring students through hands-on music making and interdisciplinary performance.
- **Festivals & Special Events** — a one-of-a-kind performance that bridges art, music, and community.
